

Environmental Sustainability Policy Statement

The National Piping Centre as a whole is committed to providing excellent standards of service across its business offerings, including teaching, retail, museum, hotel and our restaurant. We aim to work in a manner which is sustainable and to minimise the environmental impacts of our operations.

To meet our environmental commitment we will:

- Meet and, where possible, exceed all current and future European and national environmental legislative and regulatory requirements.
- Adopt best operational practices to reduce environmental impacts of NPC activities and policies.
- Measure and take action to reduce the carbon footprint of our activities and ensure our buildings and services are able to adapt to environmental change.
- Monitor, manage and minimise NPC use of energy and water.
- Minimise the environmental impact of associated travel with our venues and business
- Minimise the amount of waste produced by NPC and partners to encourage greater reuse in recycling.
- Ensure environmental, including climate change, criteria are taken into account in the procurement of goods and services.
- Consider environmental factors in NPC decisions and activities including giving due consideration to environmental issues and energy performance in the design, refurbishment, and use of our buildings which includes exhibitions and activities
- Encourage and develop our employees, volunteers, partners and stakeholders to conduct their activities in an environmentally responsible manner.
- To ensure we meet our commitments, we undertake to periodically monitor and review our environmental performance and take corrective action where necessary. This policy will be reviewed annually.
