

Welcome to The Pipers' Tryst Restaurant

Here at The Pipers' Tryst the safety of our guests and staff is imperative. We have implemented measures to ensure we are doing our best to keep everyone safe.

On Arrival

Please wait at the door to be seated. We ask that you wear your face mask until seated, and when moving around the building. We are minimising contact between our staff and guests by providing Perspex screens at our bar.

During your meal.

From 17th April, 6 guests from three households are able to dine together. Children under 12 aren't counted as part of the 6, but must be from one of the three households. We will need to collect track and trace details from each guest. Tables will be at least 1m apart to allow for social distancing.

There will be hand sanitizer stations across our restaurant, which will be available to use.

We are now able to serve alcoholic beverages indoors.

Our team will wear masks at all times to help reduce risk.

Before you leave

We are able to accept contactless payments up to £45, to help reduce the contact between people. We will also ensure that throughout your visit contact between tables and members of staff is kept to a minimum.

We're Good to Go!

We are accredited by the We're Good To Go scheme, so you know we are meeting all government guidance in regards to our procedures and hygiene during this time.
